

EKPANGABANG GILBERT

Computer Science Student | Full-Stack Developer | Cybersecurity Enthusiast | Web Designer

Enugu State, Nigeria • +234 701 751 2437 • abanggila1004@gmail.com
Portfolio: gila-portfolio.vercel.app • LinkedIn: abang-gilbert-bb7304353 • GitHub: abanggila1004-tech

PROFESSIONAL SUMMARY

Analytical and results-oriented Computer Science student and Full-Stack Developer with practical experience engineering scalable, responsive web solutions and integrating cybersecurity best practices. Proficient across the software development lifecycle using React, Node.js, Express, MySQL, and MongoDB. Combines modern UI/UX design sensibilities with a security-focused mindset to create intuitive, accessible, and performant digital applications. Proven technical communicator and collaborative leader adept at translating requirements into robust code and excelling in team-oriented, high-impact environments.

EDUCATION

Caritas University — Enugu State, Nigeria Expected: 2026
Bachelor of Science (B.Sc.) in Computer Science
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Computer Networks, Operating Systems, Systems Security.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, Mobile-First Development
Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, JSON, API Integration
Databases: MongoDB, MySQL, Relational Schema Design, NoSQL Data Modeling
Cybersecurity: Network Security Fundamentals, OWASP Top 10 Awareness, Vulnerability Assessment, Role-Based Access Control (RBAC)
Developer Tools & UI Design: Git, GitHub, VS Code, Figma, Canva, Adobe Photoshop, CorelDRAW

FEATURED PROJECTS

Full-Stack Business Management Platform / *React, Node.js, Express.js, MongoDB, REST APIs* Full-Stack Project
• Engineered a centralized business operations dashboard featuring inventory tracking, transaction logging, and real-time analytics.
• Implemented secure JWT authentication and granular Role-Based Access Control (RBAC) to enforce administrative permission tiers.
• Architected modular RESTful endpoints with input validation and data sanitization to safeguard against common web vulnerabilities.

Cybersecurity Awareness & Learning Platform / *JavaScript, HTML5, CSS3, Web Security Fundamentals* Security Project
• Built an open-access educational web platform delivering interactive modules on phishing defense, password hygiene, and safe browsing.
• Formulated practical vulnerability assessment checklists and security guidelines tailored for non-technical users and student communities.
• Optimized layout structure and accessibility to ensure cross-device responsiveness and seamless user engagement.

Personal Developer Portfolio / *React.js, Modern CSS, Vercel* Live Web Project
• Designed, built, and deployed a production-ready web portfolio demonstrating software engineering projects and technical competencies.
• Achieved a 95+ Google Lighthouse audit score across performance, accessibility, and SEO through asset minification and clean routing.

EXPERIENCE

Freelance Full-Stack Developer & Web Designer — *Self-Employed* Jan 2023 – Present
• Collaborate with small businesses and individuals to scope requirements, draft UI mockups in Figma, and build responsive web applications.
• Develop lightweight front-end layouts in HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and rapid load times.
• Integrate security best practices across deployments, including SSL certificate setup, HTTPS enforcement, and secure form processing.

Undergraduate Software & Academic Project Collaborator — *Caritas University* Oct 2023 – Present
• Participated in team-based software engineering sprints to design relational database schemas and test core software modules.
• Conducted peer code reviews, maintained Git version control discipline, and assisted colleagues in debugging code logic.

LEADERSHIP & ACTIVITIES

- General Course Representative** (Caritas University): Serve as primary liaison between 100+ students and faculty, coordinating academic schedules, lecture logistics, and course information dissemination.
- Assistant Catechist** (Local Community Parish): Lead weekly instructional sessions, mentor youth participants, and organize community service outreach initiatives.
- Student Leadership & Tech Circles:** Actively organize peer study groups focused on coding practices and emerging web security standards.

CORE COMPETENCIES & LANGUAGES

Soft Skills: Problem Solving, Critical Thinking, Cross-Functional Teamwork, Technical Communication, Adaptability, Time Management
• **Languages:** English (Fluent)
